NOTHING RIDES LIKE A SIGNATURE

# Haines Signature 620BRX

## 620BRX – sports boating, reimagined

Australia's most-awarded sports boat (the 580BR) has been reimagined.

Offering the "best of both worlds" the 620BRX is a dedicated lifestyle boat that can take you from freshwater sports boating one day, to day-tripping offshore the next.

It comes with a range of standard features to entice water sports lovers and deliver an onwater experience to set it apart from its competition. The newly-designed "U" shaped seating provides a spacious arena-style layout offering all passengers the chance to lounge and check out what's going on behind the boat and when you're exhausted after a day of skiing, wake boarding or tubing, grab a cool refreshment from the Igloo esky housed underneath the aft lounge.

The newly configured, hand crafted dash provides extra room for electronics and comes standard with a Simrad G07XSR chartplotter/sounder, a premium JL Audio stereo with Bluetooth and two 6.5 inch speakers, plus stainless steel switches moulded in so entertainment and electronics can be controlled conveniently in one place at the helm.

There's also plenty of room for skis, wakeboards, fishing tackle, rods and other gear with stowage compartments sub-floor, under the lounge seating, portside dash and side pockets. A USB charging point, courtesy lights, two rod holders and eight drink holders also come standard.

Optional features include an upgrade to 9 inch electronics, ski pole, oversized transom steps (with extendable stainless steel ladder), bait prep board, foam or carpet flooring, gel coat and upholstery options and more!

\*Previously known as 580BRX

# Specifications

---
