

HAINES *Signature*™ 680F

NOTHING RIDES LIKE A SIGNATURE

Haines Signature 680F

The ultimate trailerable fishing boat

A striking and formidable offshore champion that's as impressive on the water as it is off it.

The 680F is a dedicated offshore fishing boat and offers a modular transom design which allows one of three possible layouts so you can choose a configuration to suit your requirements and maximise the boat's deck and storage space to its full potential. It also comes with a fully enclosed hard top option.

If looks could kill, the fish will certainly want to be jumping on board the 680F and into one of its live bait tanks! With the hard top option, all-weather protection is guaranteed and the split windscreen, stainless steel frame around windows of the helm area, combined with the split bow rails and curved SVDH hull make for one imposing fishing machine.

The extra large cabin can sleep two (with storage under the bunk cushions) and has an optional lockable sliding door, which is great for those overnight fishing adventures or when taking the family away for the weekend, which is not a problem when you've got a 370L fuel capacity.

*Previously known as 650F

Specifications

Length overall	6.775m
Beam	2.50m
Deadrise	21–33°
Fuel	370L
Berths	2
Power outboard	200 V6-250hp
Transom height	25"
Max outboard weight	280kg
Hull weight	Approx. 1,442kg
Towing weight (incl. fuel)	Approx. 2,629kg
BMT length	Approx. 7.60m
BMT height	Approx. 2.45m
BMT width	Approx. 2.50m
Max people	9/720kg
Max load	1,300kg

Standards

Cruising features:

- Toilet – portable

Electrics:

- 12 volt socket
- Auto bilge pump
- Cabin lighting
- Dual battery isolator switch with emergency parallel
- Navigation and stern lights
- Simrad G07 XSR – includes Active Imaging 3-in-1 transducer and CMAP AUS/NZ maps
- Simrad VHF radio with antenna
- Stereo – JL Audio MM50 with 2 x 6.5" speakers
- Switch panel and wiring harness

Fishing features:

- Rod holders – stainless steel

Gelcoat:

- Single tone hull and deck – white

General convenience and construction:

- Anchor locker with hatch – self draining
- Bowsprit (moulded) and heavy duty hardware
- Bulkhead between cockpit and cabin
- Cabin side windows
- Cockpit side boxes
- Dash board – non-glare and facia with eyebrow
- Foam filled floor with inbuilt kill tanks
- Forward deck access hatch
- Forward stowage under bunks
